

IN THE CLAIMS

The following is a complete listing of the claims in this application, reflects all changes currently being made to the claims, and replaces all earlier versions and all earlier listings of the claims:

Claims 1- 20 (Canceled)

Claim 21 (Currently Amended): A method for enabling communication between first and second parties comprising the steps of:

providing an electronic device adapted to display at least one digital transactional flash card from a plurality of transactional flash cards stored in a memory comprising a first text understandable to the first party and a second text understandable to the second party and an image, wherein both texts describe the image;

selecting at least one digital transactional flash card from the memory;

displaying the at least one digital transactional flash card; and

communicating, by the first party, the at least one transactional flash card to the second party.

~~storing a plurality of transactional flash cards in memory of the device for display on at least one screen of the device; and~~

wherein storing a user profile including digital transactional flash card data created by the first party is stored in the memory, and

wherein the electronic device further comprises a navigational system comprising a plurality of cross-linked pages that allow the first party to select the stored flash cards from a plurality of cross-referenced groups.

Claim 22 (Currently Amended): [[The]] A method [[of]] according to claim 21 wherein the user profile comprises a list of the first party's favorite digital transactional flash cards.

Claim 23 (Currently Amended): [[The]] A method [[of]] according to claim 21 wherein the user profile comprises a list of the first party's picks of digital transactional flash cards.

Claim 24 (Currently Amended): [[The]] A method [[of]] according to claim 21 wherein the user profile contains comments entered by the first party.

Claim 25 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 21 wherein the user profile comprises at least one note entered by the first party.

Claim 26 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 21 wherein the electronic device is further adapted to send and retrieve other first party user profiles from the Internet.

Claim 27 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 21 wherein the plurality of digital transactional flash cards may be sorted into groups.

Claim 28 (Canceled)

Claim 29 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim ~~[[28]]~~ 21, wherein the navigation system further has several programmed actions that assist the first party in moving through the selection process.

Claim 30 (Currently Amended): A method according to claim 21 further of enabling ~~communication between first and second parties~~, comprising the ~~[[steps]]~~ step of~~[[:]]~~

~~(a) — providing a first electronic device having a display, the device adapted to store a plurality of digital transactional flash cards in a memory so that at least one flash card may be viewed on the display;~~

~~(b) — selecting at least one digital transactional flash card from the memory;~~

~~(c) — displaying the at least one digital transactional flash card comprising a first text understandable to the first party and a second text understandable to the second party and an image, wherein both texts describe the image; and~~

~~[[d)]~~ enabling the first party to communicate with another first party user of a second electronic device adapted to store a plurality of transactional flash cards in a memory by exchanging stored digital transactional flash cards between the first and second electronic devices.

Claim 31 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 30, wherein at least two first parties have stored user profiles in the memories of the first and a second electronic devices, ~~step (d) and the enabling step~~ further comprising ~~the step of~~ exchanging user profiles between the first and second electronic devices.

Claim 32 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 31, wherein the user profiles of the at least two first parties are sent by the at least two electronic devices to an exchange facility on the internet from which they can be retrieved or viewed by other first parties.

Claim 33 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 30, wherein at least one first party has stored user profiles of other first parties in the memory of at least one electronic device.

Claim 34 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 30, wherein at least one electronic device comprises a camera.

Claim 35 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 30, wherein first party users can exchange notes in form of images taken by the camera.

Claim 36 (Currently Amended): A method of enabling communication between first and second parties, comprising the steps of:

~~[[a)]]~~ providing a first electronic device having a display, the device adapted to store a plurality of digital transactional flash cards in a memory so that at least one flash card may be viewed on the display;

~~[[b)]]~~ selecting at least one digital transactional flash card from the memory;

~~[[c)]]~~ displaying the at least one digital transactional flash card comprising a first text understandable to the first party and a second text understandable to the second party and an image, wherein both texts describe the image; and

~~[[d)]]~~ providing the second party with a second electronic device having a display, the device adapted to receive through wireless or wired transmission from the first party a list comprising at least one digital transactional flash card that may be viewed on the display of the second electronic device,

wherein at least one of the first and second electronic devices has a user profile which includes digital transactional flash card data stored in the memory, and

wherein the electronic device further comprises a navigational system comprising a plurality of cross-linked pages that allow the first party to select the stored flash cards from a plurality of cross-referenced groups.

Claim 37 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 36, wherein first party can ~~[[beam]]~~ transmit price inquiries to the second party.

Claim 38 (Currently Amended): ~~[[The]]~~ A method ~~[[of]]~~ according to claim 37, wherein the second party can beam to the first party an itemized bill with a total for the list of the items requested by at least one first party.

AMENDMENTS TO THE DRAWINGS

Attached herewith is eleven (11) corrected drawing sheets to be substituted for the corresponding drawing sheets presently on file in the above-identified application. The attached replacement drawing sheets include the renumbering of Figures 10-21 and changes to Figure 13. The changes to the replacement drawing sheets are not believed to add new matter to the original disclosure.
